**Trailer or Skid**

MOUNTED

## YOUR CORE VOUCHER, ITEMIZED

### MFCG 120H — PROGRAM PRICING SUMMARY

MFCG 120H — List Price

**\$394,000**

CORE Voucher — Mobile Power Unit (Fuel Cell)

**-\$295,000**

**Your Net Price**

**\$99,000**

CORE (Clean Off-Road Equipment Voucher Incentive Project), administered by the California Air Resources Board. Voucher amount reflects the current maximum for the Mobile Power Unit – Fuel Cell category. Subject to program eligibility, application approval, and voucher fund availability. Check your eligibility and apply at [californiacore.org](https://californiacore.org).

**VOUCHER APPLIED**

## BUILT FOR REAL DEPLOYMENTS

### Hydrogen Fuel Cell Core

PEM fuel cell power source — refuel and go, no combustion, no local emissions.

### Hybrid Power

Fuel cell augmented with battery ESS for demand surges with long continuous operation.

### Multi-Climates Use

Validated in hot and cold environments at varying elevations.

### Quiet Operation

A fuel cell alternative to diesel gensets for noise-sensitive sites.

## PROVEN IN THE FIELD

**California State Capitol, Sacramento** — event & special-event power deployment

**Big Bear, CA** — cold-weather demo, snow-covered site conditions

**Bring clean power to your next site.**
